RESOURCES AND AI REFLECTION

Student / Team ID: _____

Name of Competitive Event: Webmaster

Level: ☒ High School ☐ Middle School

RESOURCES

1. **Program Resources Used:**
   List software, programs, online resources, or apps, specific to this event, you used to complete your project.

   YouTube
   Claude Certified Architect exam description
   GeeksForGeeks

Did you use artificial intelligence (AI) in the development/production of your project? ☒ YES ☐ NO

If NO, complete questions 2 and 3.
If YES, complete questions 4 through 8.

IF NO AI,

2. **Processes and Functions Performed:**
   Describe how you used each resource and what role it played in your work.

3. **Effectiveness:**
   Reflect on how well your chosen resources supported your project. What worked well? What would you do differently?

IF YES AI,

4. **Format of AI Use:** Select one

☐ Generative (used AI to create text, images, or other content)
☐ Informative (used AI to research or gather information)
☒ Both
☐ Other: _____

continued on other side

5. **AI Tool(s) Used:** Name the specific AI tool(s) you used.

NotebookLM
Claude
Copilot

6. **AI Use Explanation:** Complete questions, specific to this event, below:

Context: What background information did you give the AI to guide its response? (e.g. target audience, tone, project requirements, or constraints)

Role: What specific role did you use AI for (e.g., brainstorming, research support, drafting, debugging)?

Research support. We used AI to streamline our own learning in the field of AI education via NotebookLM. You can import sources, generate summaries to read, or create mindmaps/notecards/quizzes.

Action and Outcomes: Summarize the specific task(s) you ask the AI to perform?

7. **Effectiveness:** How did you evaluate the reliability and usefulness of the AI responses? What changes or decisions did you make to the AI-generated content to improve or refine it? Did you experience incorrect or misleading information?

8. **Ethical Reflection:** Explain how your use of AI was appropriate and ethical for this project.

Consider the following as example questions to consider in this response:

How did you ensure that the final work represents your own ideas, understanding, and creativity rather than AI-generated content? How did you avoid over-reliance on AI or using it in a way that could be considered unethical?

**Applicable to the High School Competitive Events Guide for the 2027 & 2028 National TSA Conferences*
